1. Reference is made to the minutes of the Special Group meeting of 25 February which read as follows:

" In light of the long delays which have been accomplished in the Far East in mounting reconnaissance missions, because of bad weather, the group agreed that current restrictions should be relaxed somewhat. It was recognized that in some cases it will be preferable to get only a part of what is desired rather than to remain grounded indefinitely. "

2. Because of the importance of acquiring information as soon as possible on ChiCom nuclear and missile developments, the DCI has directed in accordance with the minutes cited above that you relax the usual requirement for Category II weather.
